

Course Overview

Diabetes is serious. It can be life-threatening, however, people with diabetes can live long, healthy lives if their condition is kept well-controlled.

In this course, we explain what diabetes is and what to look out for. We cover how it is diagnosed and how to provide care and support to a person living with diabetes. There are also links to other resources and organisations providing support and further information.

Course Content

1. What is diabetes
2. The impact of diabetes on health and social care services
3. Different types of diabetes
4. Hyperglycemia, hypoglycemia and symptoms
