

Course Overview

Whilst the bug on our cover photo is a bit cute, bugs can be pretty nasty. Florence Nightingale apparently said “Wise and humane management of a patient is the best guard against infection.” This course provides a refresher for people who have already done the Care Certificate. Be wise - take this course!

Course Content

1. Describe the main ways an infection can get into the body.
2. Demonstrate effective hand hygiene.
3. Explain how your own health or hygiene might pose a risk to the individual you support.
4. List common types of personal protective equipment, procedures and current use.
5. Explain the principles of safe handling of infected or soiled linen and clinical waste.

Course Duration 30 minutes

Developed by a team of subject experts.
